

CARBONDALE.

THE WATER AGITATION.

Consolidated Supply Company Publish Their Rates.

The Consolidated Water Supply company was responsible to the agitation against it by publishing a list of rates and defending the 25 per centum advance by saying that the corporation is entitled to fair returns on its investment.

While the figures show about a 25 per cent advance, it really amounts to more, because many things are rated which were never rated before and the rating is different. This may have a tendency to knock the enthusiasm out of the movement for municipal water works and it may not.

The Hendrick Manufacturing company is pushing work on two bore holes for artesian wells and the results obtained there will doubtless have a marked influence on other large consumers.

TRINITY'S NEW CHURCH.

The vestrymen of Trinity church after exhaustive investigation have determined to have the new church building constructed of Cleveland blue Amherst stone with Pottstown red sandstone for trimmings. These stones are of a very durable quality and some of the largest buildings in the United States are built with them. The appearance is fine and with the ornate architecture provided the new Trinity church will undoubtedly be one of the best appearing structures in the valley. Contractor Robinson, who has the work to do, expects to have the lines drawn for the foundation walls today. The work will be entered upon at once.

FIRE ALARMS.

The boiling over of a pot of meat in a house on upper Belmont street caused some hasty person to send in a fire alarm yesterday afternoon. The gong sounded Sixth ward and both companies responded.

Tuesday night shortly before 12 the fire alarm was given from Sixth ward, but the blaze was in Simpson, where Russell Carpenter's candy store burned.

HOOD'S PILLS cure sick headache, indigestion.

TUNKHANNOCK.

The office in the Little block left vacant by the removal of the Lewis & Voss Insurance agency has been rented by the Electric Light company and Miss Eleanor Little installed there as local manager of the company. An application will be made to the governor for a charter and the new company will be known as the Tunkhannock Electric company. Superintendent

CONVENTIONAL MISS COVINGTON.

Harriet Daryl Cox, in Chicago News.

"It must be very interesting," she said, with a dazzling smile and an upward interested glance.

Young Barker ground his teeth. He knew that smile. It was the one where-with the conventional Miss Covington had brought scores of his fellow sufferers to her feet.

"You're not like other girls," he ventured.

"No!" She raised her eyebrows in polite inquiry. "Was a platitude to which her ears were accustomed, and it usually produced something more serious."

"You're the Ice Maiden, or something of that sort. Always part of your surroundings, doing exactly what you are expected to, and conventional—oh, deucedly so."

He fired this out as a sort of challenge, the words glancing squarely.

"Oh, yes!" he replied, as he noted a bit of indignation in her face—a sign hopeful rather than otherwise. "You are, you know you are. You wouldn't do an unconventional thing to save your life, not even if it was entirely untrue. He paused a moment."

There was a determined look creeping into her eyes.

"Now this thing I was talking to you about and which you thought so interesting," he went on. "From your standpoint it's unpleasant to hear about the common people, what they do and how their standards are so different, yet really as high as yours. It interests you as a new book might, but you want to view it from the outside. If you go slumming you do it in a genteel way and so you see nothing of the real thing."

"The ordinary life about you you know nothing of. In the abstract you know that Jane goes out and somewhere she meets James and they have an hour or so of each other's company that is so real in its enjoyment that she comes back with a sparkle in her eye and her heart beating faster than its wont. And James goes home strengthened for the next day's work."

"Yet, perhaps they've only been sitting on a bench in the common—but they're real—sincerely changed."

"Would you suggest my trying it, in order to be real?"

Her voice was bantering, but there was an underlying thrill of earnestness in it.

"Yes, I would," he answered, shortly.

"Then his manner suddenly changed. "I beg your pardon for it all," he said, with a conventional bow and a contrite expression on his face.

"You needn't," she said, in a curious voice. "If you'll be James, I'll—I'll be Jane tomorrow night."

"The eagle hotel and the Wyoming Valley hotel are entertaining several of the fresh air children from New York and the manner in which they have been 'logged out' will make their companions green with envy when they return to their homes."

Henry Melhorn is one of the young lads at the Valley House and a bright precocious boy. He knows Gotham from Harlem to the Battery and is a conversationalist positively interesting. Quite a number of the youthful visitors were seen on the streets yesterday and their appearances they are in the care of liberal and generous people.

Miss Margaret E. Burke, of Jenkins township yesterday morning at St. John's church was wedded to Dr. Joseph Messer, of Philadelphia.

The bridal party arrived at 10 o'clock and were met at the altar by the Very Rev. E. M. Garvey, who tied the nuptial knot. At the home of the bride a sumptuous luncheon was served to the guests and in the afternoon the couple departed for New York and Philadelphia.

Dolph Glennon and family, who for several weeks have been visitors at West Haven Springs, Indiana, in the hopes of recuperating Mr. Glennon's health, returned yesterday, and we are sorry to say that the trip has proved beneficial. His particular ailment is rheumatism and his many friends hope to again see him speedily improve.

A West Pittston organization with a band of trumpets and electric lights invited the patronage of our people to a festival which they held on the Susquehanna lawn last evening, but when their patrons were informed that their stock was purchased in Wilkes-Barre the business fell flat—very flat.

An interesting pool match was played at John Padden's pool rooms yesterday for \$50 a side between M. J. Hughes and Lew Bachman. The game was one hundred balls and throughout the contest it was a nip and tuck exhibition, as they were several times after the score had reached the twenty mark. Hughes won with a score of 100 to 82.

Baked clams and green corn will be served today to the guests of the St. Charles hotel on South Main street.

St. Peter's school on the school goes to Harvey's lake this morning.

Persons troubled with diarrhoea will be interested in the experience of Mr. W. M. Bush, clerk of Hotel Dorrance, Providence, R. I. He says: "For several years I have been almost a constant sufferer from diarrhoea. My attacks completely prostrating me and rendering me unfit for my duties at this hotel. About two years ago a traveling salesman kindly gave me a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Much to my surprise and delight its effects were immediate. Whenever I felt symptoms of the disease I would fortify myself against the attack with a few doses of this valuable remedy. The result has been very satisfactory and almost complete relief from the affliction." For sale by all druggists, Matthews Bros., wholesale and retail agents.

her alone, of course, I knew what that meant." She smiled a placid smile as she comforted this in her companion in an undertone. They were passing the public garden.

"Did you ever notice—?" Young Barker spoke across the carriage to the stately aunt.

"Did you ever notice how many people frequent those seats in the garden?" The elderly lady raised her glasses to her eyes.

"Dear me, no!" she said. "And they seem to be quite respectable, too," she added.

"Some of them are eminently so," he returned, his eyes on a certain seat where fell the shadow of a tree.

JERMYN AND MAYFIELD. Charles Smith, whose name appeared among the list of names in last week's dispatches telling of the death of thirteen Klondikers, arrived at his home at Mayfield safely last evening.

there was a total destruction of all buildings within a radius of 300 yards, while from that distance to 600 yards all the buildings were shattered and the roofs were battered in up to about 1,000 yards. But all these buildings were built chiefly of corrugated iron and mud, and therefore were of the most unsubstantial character. On the other hand, we have in the United States the blowing up of the Hudson river Falls dam in 1892, when the explosion of two tons of dynamite, placed in a chamber in the rock, brought down 100,000 tons of rock; the blasting of the Dinorwic quarries, Llanberis, in the same year, when 2 1/2 tons of gelatin dynamite, placed in chambers in the dike, overthrew 180,000 tons of rock; the destruction of the famous Talsen Mawr in 1885, when seven tons of powder, poured into two shafts, dislodged a mass of rock computed to weigh from 125,000 to 200,000 tons. From this we find that the dynamite on the interior of Fort Lee was over forty times as efficient as the explosive gelatin used on the surface at Johannesburg, while the powder at Talsen Mawr was over forty-two times as efficient. It is, hence, not surprising that the superficial explosion of 300-pound charges of gun cotton thrown by the Vesuvius gun at Santiago during the war between the United States and Spain produced no serious structural damage, and simply harassed the enemy by their frightful reports, which occurred at infrequent intervals and unexpected times.

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness results, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, etc. Hall's Family Pills are the best.

SOME GREAT EXPLOSIONS.

Seven Tons of Powder Dislodged 200,000 Tons of Rock. From Cassier's Magazine. Among the many incidents that are on record, one of the most notable is that of the explosion of fifty-five tons of blasting gelatin which was being unloaded from a railway train at Braunfontein, 300 yards west of Johannesburg, in South Africa, on February 19, 1896, and which was exploded by an on-on collision. The result of the explosion of this enormous quantity of one of the most powerful explosives used was to produce a crater 300 feet long, 65 feet wide and 30 feet deep in soft ground; or, taking a cubic foot of earth as weighing 100 pounds, the superficial explosion of this 55 tons of explosive gelatin excavated about 30,000 tons of soft earth.
